NOTIFICATION OF IFRA STANDARDS NO. 7

November 6, 2006

41st Amendment to the IFRA Code of Practice

Dear Colleagues,

IFRA notifies:

Addition of Geranyl nitrile to the list of materials with non-supported use (“other materials”)

Please note the following:

- The compliance with the Standards of the IFRA Code of Practice is mandatory for all companies belonging to an IFRA member association.
- The National Associations are required to circulate this letter without any delay to their member companies.

New Standard

| Name | CAS No | Synonyms | Status |
|-----------------|--------------------------------------|--|--|
| Geranyl nitrile | 5146-66-7 5585-39-7 31983-27-4 | 3,7-Dimethyl-2,6-octadienenitrile; Geranonitrile (isomer unspecified); Geranitrile; Citralva, Citranile (Trade names) | Prohibited New – Added to list of other materials |

The compliance timeline will follow standard IFRA protocol. The measure of prohibiting the use of the material will therefore come into effect:

- 1 month after the date of the letter of notification for new submissions;
- 13 months after the date of the letter of notification for existing fragrance compounds.

As usual these dates apply to the supply of fragrance compounds (formulas) only, not to the finished products in the marketplace.

In the specific cases where the Standard relates to a fragrance material that is used in a product for which the fragrance compound must be registered (e.g. pesticide products), a longer delay may be accorded to allow for regulatory approval to be given to the fragrance compound that has been modified to accommodate the Standard. However, in such cases, companies will take action to obtain this regulatory approval before the date fixed for final compliance with the Standard.

The 41st Amendment to the Code of Practice will be published on the website seven months after the date of the letter of notification.

The 41st Amendment package contains:

- Notification letter
- Revised list of other materials
- Revised index of IFRA Standards.

The Member Associations are kindly requested to distribute this information without delay to their individual members.

If you have any questions, please do not hesitate to contact the IFRA Secretariat.

Best regards
Matthias Vey
Scientific Director

History of Amendments to the IFRA Code of Practice (since year 2001)

| No. of notification | Date of notification | Standards |
|---|----------------------|---|
| - 1 - 35th Amendment | April 17, 2001 | Tagetes oil and absolute Methyl N-methylantranilate (Dimethyl anthranilate) Rue oil Petitgrain Mandarin oil |
| - 2 - 36th Amendment | July 3, 2002 | Bitter orange peel oil expressed Cinnamyl nitrile Methyleugenol |
| - 3 - 37th Amendment | April 15, 2003 | Cinnamic alcohol para-tert-Butyl-alpha-methylhydrocinnamic aldehyde (BMHCA) 3 and 4-(4-Hydroxy-4-methylpentyl)-3-cyclohexene-1-carboxaldehyde (HMPCC) |
| - 4 - 38th Amendment | April 6, 2004 | Benzene Benzyl cyanide Birch wood pyrolysate Cade oil (Juniperus Oxycedrus L) Carvone oxide Cinnamic aldehyde 3,7-Dimethyl-2-octen-1-ol (6,7 Dihydrogeraniol) Diphenylamine Ethylene glycol monoethylether and its acetate Ethylene glycol monomethylether and its acetate Eugenol Hydroabietyl alcohol Isoeugenol Isophorone Linalool Toluene |
| - 5 - 39th Amendment | April 12, 2005 | Methyl-beta-naphthyl-ketone Moskene Musk tibetene Sclareol 5-Acetyl-112336-hexamethyl indan (AHMI) – <i>New format</i> Allyl heptine carbonate – <i>New format</i> Amylcyclopentenone – <i>New format</i> Angelica Root Oil – <i>New format</i> Cumin Oil – <i>New format</i> trans-2-Hexenal – <i>New format</i> Hydroxycitronellal – <i>New format</i> Isocyclogeraniol – <i>New format</i> Menthadienyl formate – <i>New format</i> 2-Methoxy-4-methylphenol – <i>New format</i> Methyl heptine carbonate – <i>New format</i> Methyl N-methylantranilate – <i>New format</i> p-Methylhydrocinnamic aldehyde – <i>New format</i> Tagetes – <i>New format</i> |
